

- Loader base class methods
- Loader methods (requires overriding)

`load(identifier, data_dir, single)`

is `identifier` an integer?

construct file path from
`identifier` & `data_dir`

`single`?

`infer_index`

`identify`

failed to infer?

single file?

`load_multiple_parallel`

`combine_multiple`

`load_single`

`post_process`

loaded data
